*The powerful 6.7-liter engine delivers best-in-class horsepower*

The 4.75 cubic yard W230C wheel loader launches a new size-class for New Holland. Offering more net horsepower, greater tipping load weight and bucket breakout force, the W230C meets aggregate stockpiling and other highproduction truck loading applications head on.

## **A new team of performers**

Meet the C Series. This new team of New Holland wheel loaders delivers bigger payloads, faster cycle times and puts more cash to your bottom line.

## **Serious fuel savings**

The heart of every C Series wheel loader is a New Holland 6.7-liter engine, packing best-in-class horsepower and massive torque to deliver power for every work cycle. Four upgraded power modes let operators match available engine power to the job while saving fuel. Economy Mode matches competitive power while operating most efficiently.

## **Breakthrough productivity**

The new W170C, W190C and W230C wheel loaders flat-out deliver. Stronger and faster hydraulics deliver superior productivity and performance. An optional two-lever hydraulic control system meets the needs of high-production operators.

# MORE POWER. LESS FUEL. MEET THE NEW C SERIES WHEEL LOADERS.

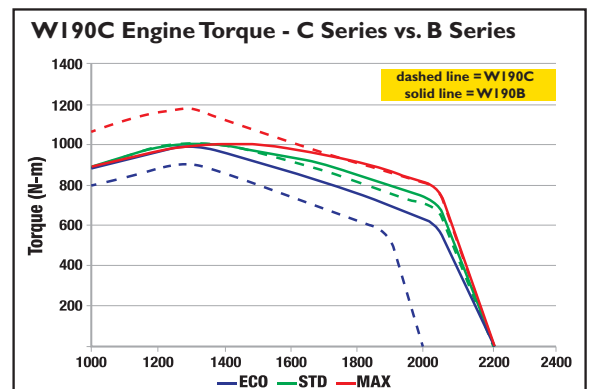

## Features to meet your requirements

We offer dozens of options to meet your specific application requirements. The award-winning New Holland Joystick Steering lets operators seamlessly move between the joystick and steering wheel for high production applications. New Holland PowerInch lets the operator quickly and precisely approach targets in tight areas, regardless of engine speed – ideal for short-cycle loading of trucks or hoppers. Choose from standard and TC versions of the W170C, W190C or the W170C LR with integrated quick coupler. And that's just the beginning.

## Best-in-class serviceability

New Holland has a reputation for easy-to-maintain and easy-to-service equipment – resulting in more uptime and profits. The new C Series wheel loaders are no exception.
